CATALOG BULLETIN SEVENTY-SEVEN

STOCK DISTILLED SPIRITS, WINES AND CORDIALS #12

JUNE 1960

This is a complete NEW STOCK LIQUOR WARE CATALOG, which obsoletes CATALOG BULLETIN SEVENTY THREE, STOCK DISTILLED SPIRITS, WINES AND CORDIALS #11, dated FEBRUARY 1958. Distribution of this issue has been confined to Owens-Illinois personnel, but sales people may secure additional copies through our Comptrollers Department, Toledo.

With the exception of new and closed out items, the continuity is similar to the preceding issue. As an extra service we are including the proper price list to apply on each item. We hope this will be a help in pricing, especially on flasks, where there is a possibility of pricing at List 2, List 2A or List 5. Beyond this, if there is any question, please contact the Price Division. The mold type and factory locations have been brought up to date. The figures listed under the column headed "LESS SET" designate the number of molds in the part sets, available at the location shown. Where nothing appears in this column a full set of the type of molds shown is on hand.

In the wine section, GCMI-475 Inner Seal Spot Finish has replaced the OI-401 "J" style Filma-Seal. Actual changes are minor and all existing neck ring equipment can be worn out. All continuous thread finishes, excepting the I600 Pilfer and Tamper-Proof Roll-on series, can be furnished with O. I. 405 Depressed construction when existing equipment requires replacement. The finishes listed have been run, or in some cases sampled on the items shown. Please check carefully to determine if rings are available for operation in the quantity desired at a suitable location.
